EDUCATION

University of Toronto

Toronto, ON

B.A.Sc. Computer Engineering, Minor in Business and AI (PEY Co-op)

Aug. 2024 – May 2029

- GPA: **3.84/4.0** (3.91 this year) | Dean's Honour List: Fall 2024, Winter 2025, Fall 2025.
- Certified: Anthropic AI Fluency & Claude 101. Courses: Deep Learning (in prog.), Software Design.

WORK EXPERIENCE

Undergraduate Researcher – AskAlan, Claude-Powered Course Assistant

May 2026 – Present

University of Toronto, Dept. of Electrical & Computer Engineering

Toronto, ON

- Ship production changes to an AI assistant serving students across **19 live courses**, on a faculty-led team.
- Led zero-downtime search migration of **118K** documents, validated against **8K+** real student queries.
- Cut retrieval latency **40%**; built cost tracking across 5 model providers for faculty dashboards.

Founder – AI Consulting & Training Practice

May 2026 – Present

Teaching small operations-heavy businesses to run AI in their own operations

Toronto, ON

- Teach non-technical owners and staff to use AI in their daily operations; clients own every workflow.
- Paid engagement with a renovation contractor serving nonprofit housing operators (training + tools).
- Built Claude API tools clients run themselves: document summarizer and operations report generator.
- Retained as ongoing AI advisor by a 45-year-old alarm monitoring company (**20,000+** customers).

Founder & AI Product Lead

Aug. 2025 – Present

WorldEd – AI-Powered Adaptive Learning Platform

Toronto, ON

- Founded a STEM education platform end-to-end: product strategy, development, and launch.
- Built Eddi, a Socratic AI tutor (RAG + function calling) that guides students instead of giving answers.

Software Engineering Intern

May 2025 – Aug. 2025

Aspire Software

Lebanon

- Delivered 5 client software products end-to-end; resolved 15+ bottlenecks, cutting latency **35%**.
- Achieved **95%** test coverage with data architecture supporting 1,000+ daily transactions.

PROJECTS

WealthEasy – AI Life Event Detection Engine | Next.js, TypeScript, Supabase, Claude API

Feb. 2026

- Built a compliant human-in-the-loop AI system scaling advisor output **10×** over manual review.
- Delivered the full system – API, signal monitor, review portal, audit log – in **3 days** as a team of 2.

SERVICE, TEACHING & LEADERSHIP

Les Scouts du Liban – Elected Troop Leader

Sept. 2016 – Aug. 2024

8 years of youth mentorship and community service

Lebanon

- Led 9 scouts; organized food drives feeding **500+** families and **80+** hours of community service.

Private Tutor – Math, Physics & Chemistry

Apr. 2023 – Present

Ongoing teaching of high-school and university students

- Taught hard concepts simply for 3+ years, building review materials and problem-solving strategies.

Harvard Model United Nations – Delegate, then Advisor

2023 – 2024

Diplomatic Commendation among 300+ international delegates

- Trained the 2024 delegate cohort on research, writing, and negotiation; passed 3 resolutions as delegate.

TECHNICAL SKILLS

AI: Anthropic Claude API, RAG pipelines, retrieval evals, prompt engineering, cost observability

Languages: Python, TypeScript, JavaScript, SQL (PostgreSQL), C/C++, HTML/CSS

Frameworks & Tools: Next.js, FastAPI, React, Node.js, Supabase, Elasticsearch, pgvector, Git, Linux

Practice: Workflow discovery, stakeholder translation, training non-technical teams, documented handoffs
